Paolo Fasani

CRA Manager presso Medpace
Milano, Lombardia, Italia

Riepilogo

As CRA Manager at Medpace I am involved in:

- Line Management of Clinical Research Associates (CRA) in specified country/region(s).
- Recruitment, training, development and allocation of CRAs in country/region(s).
- Manage turnover and retention of CRAs to meet company objective.
- Assist Clinical Trial Managers (CTM) with achieving project objectives in regards to CRA performance standards and monitoring consistency and compliance.
- Assist CTMs in trouble shooting and serve as a resource for issue resolution.
- May serve as a main contact for the country/region including feasibility.
- May serve as a Lead CRA as needed.

As Lead Clinical Research Associate at Medpace I was involved:

- To independently customize and maintain the Monitoring Plan, Issues and Visit Report writing guidance, Project Specific Training material, Project Specific Training Logs.
- To collaborate with other functional groups within the company such as data management, project management, quality assurance and biostatistics where necessary to support milestone achievement and to manage study issues and obstacles.
- To manage and follow study activities through ongoing tracking and review of study progress.
- To provide input and report progress to the assigned clinical project management leaders.
- To conduct review of CRA visit reports within required timeframe, track CRA compliance and proactively escalate quality or non-compliance issues to Monitoring Management.
- To handle escalations for site management questions and issues for assigned projects.

- To develop and deliver presentations & training to clients, colleagues and professionals.
- To host routine CRA team calls with a focus on best practice / knowledge sharing.
- To support audit and inspection activities as needed and may assist with on-site CRA training and evaluation upon request.
